THE ANNALS
of
MATHEMATICAL STATISTICS

FOUNDED AND EDITED BY H. C. CARVER, 1930-1938
EDITED BY S. S. WILKS, 1938-1949

THE OFFICIAL JOURNAL OF THE INSTITUTE OF MATHEMATICAL STATISTICS

VOLUME 43

1972

The Annals of Mathematical Statistics
1972, Vol. 43, No. 6, iii-xvii

CONTENTS OF VOLUME 43

ARTICLES AND SHORT COMMUNICATIONS

ADAMS, J. E., GRAY, H. L. AND WATKINS, T. A. On the jackknife statistic, its extensions, and its relation to e_n-transformations... 1–30

ADLER, R. L., SHIELDS, P. AND SMORODINSKY, M. Irreducible Markov shifts... 1027–1029

AGGARWAL, K. R. A note on construction of triangular PBIB design with parameters $v = 21$, $b = 35$, $r = 10$, $k = 6$, $\lambda_1 = 2$ and $\lambda_2 = 3$... 371

ALAM, KHURSHEED. Unimodality of the distribution of an order statistic... 2041–2044

ALAM, KHURSHEED AND THOMPSON, JAMES R. On selecting the least probable multinomial event... 1981–1990

ANDĚL, JIŘÍ. Symmetric and reversed multiple stationary autoregressive series... 1197–1203

ANDERSON, DONALD A. Designs with partial factorial balance... 1333–1346

ATZINGER, ERWIN M. AND HULTQUIST, ROBERT. The mixed effects model and simultaneous diagonalization of symmetric matrices... 2024–2030

BALKEMA, A. A. AND DE HAAN, L. On R. von Mises' condition for the domain of attraction of $\exp(-e^{-x})$... 1352–1354

BEHNEN, KONRAD. A characterization of certain rank-order tests with bounds for the asymptotic relative efficiency... 1839–1851

BERAN, R. J. Rank spectral processes and tests for serial dependence... 1749–1766

BERGER, TOBY. On the correlation coefficient of a bivariate, equal variance, complex Gaussian sample... 2000–2003

BERK, ROBERT H. A note on sufficiency and invariance... 647–650

BERK, ROBERT H. Consistency and asymptotic normality of MLE's for exponential models... 193–204

BERMAN, SIMEON M. Maximum and high level excursion of a Gaussian process with stationary increments... 1247–1266

BERRY, DONALD A. A Bernoulli two-armed bandit... 871–897

BHATTACHARYA, P. K. Order of dependence in a stationary normally distributed two-way series... 1792–1807

BHATTACHARYA, P. K. AND SMITH, ROBERT P. Sequential probability ratio test for the mean value function of a Gaussian process... 1861–1873

BINGHAM, CHRISTOPHER. An asymptotic expansion for the distribution of the eigenvalues of a 3 by 3 Wishart matrix... 1498–1506

BLUM, JULIUS AND EISENBERG, BENNETT. Conditions for metric transitivity for stationary Gaussian processes on groups... 1737–1741

BLUM, JULIUS R. AND PATHAK, PRAMOD K. A note on the zero-one law... 1008–1009

BOHRER, ROBERT AND FRANCIS, GEORGE K. Sharp one-sided confidence bounds over positive regions... 1541–1548

BONDAR, JAMES V. Structural distributions without exact transitivity ... 326–339
BOOK, STEPHEN A. Large deviation probabilities for weighted sums ... 1221–1234
BRILLINGER, DAVID R. On the number of solutions of systems of random equations ... 534–540
BURDICK, D. L. A note on symmetric random variables ... 2039–2040
BURDICK, D. L. Distribution free tests for symmetry based on the number of positive sums ... 428–438
CAMBANIS, STAMATIS AND RAJPUT, BALRAM S. Gaussian processes and Gaussian measures ... 1944–1953
CASADY, ROBERT J., CRYER, J. D., ROBERTSON, TIM AND WRIGHT, F. T. Monotone median regression ... 1459–1469
CAUSEY, B. D. Sensitivity of raked contingency table totals to changes in problem conditions ... 656–658
CHANDA, K. C. On estimation of tail end probabilities of the sample mean for linear stochastic processes ... 1680–1686
CLIFFORD, PETER AND SUDBURY, AIDAN. The division of a sequence of random variables to form two approximately equal sums ... 236–241
COCKE, W. J. Central limit theorems for sums of dependent vector variables ... 968–976
COHN, HARRY. Limit theorems for sums of random variables defined on finite inhomogeneous Markov chains ... 1283–1292
CROW, L. H. AND SHIMI, I. N. Maximum likelihood estimation of life-distributions from renewal testing ... 1827–1838
CRYER, J. D., ROBERTSON, TIM, WRIGHT, F. T. AND CASADY, ROBERT J. Monotone median regression ... 1459–1469
DARLING, D. A., LIGGETT, T. AND TAYLOR, H. M. Optimal stopping for partial sums ... 1363–1368
DARROCH, J. N. AND RATCLIFF, D. Generalized iterative scaling for log-linear models ... 1470–1480
DAVIS, A. W. On the marginal distributions of the latent roots of the multivariate beta matrix ... 1664–1670
DE HAAN, L. AND BALKEMA, A. A. On R. von Mises' condition for the domain of attraction of $\exp(-e^{-x})$ ... 1352–1354
DE HAAN, LAURENS AND HORDIJK, ARIE. The rate of growth of sample maxima ... 1185–1196
DEMPSTER, A. P. A class of random convex polytopes ... 260–272
DENNY, J. L. Sufficient statistics and discrete exponential families ... 1320–1322
DE WAAL, D. J. On the expected values of the elementary asymmetric functions of a noncentral Wishart matrix ... 344–347
DEY, A., KULSHRESHTHA, A. C. AND SAHA, G. M. Balanced designs with unequal replications and unequal block sizes ... 1342–1345
DROGIN, Richard. An invariance principle for martingales ... 602–620
DUBINS, LESTER, E. Sharp bounds for the total variance of uniformly bounded semimartingales ... 1559–1565

DUPAČ, VÁCLAV AND KRÁL, FRANTIŠEK. Robbins-Monro procedure with both variables subject to experimental error 1089–1095

U. S. POSTAL SERVICE

STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION

(Act of August 12, 1970: Section 3685, Title 39, United States Code)

SEE INSTRUCTIONS ON PAGE 2 (REVERSE)

1. TITLE OF PUBLICATION: ANNALS OF MATHEMATICAL STATISTICS

2. DATE OF FILING

3. FREQUENCY OF ISSUE: BI MONTHLY

4. LOCATION OF KNOWN OFFICE OF PUBLICATION (Street, city, county, state, ZIP code) (Not printers): Mount Royal & Guilford Avenues, Baltimore, Maryland 21202

5. LOCATION OF THE HEADQUARTERS OR GENERAL BUSINESS OFFICES OF THE PUBLISHERS (Not printers): University of California Medical Center, San Francisco, California 94122

6. NAMES AND ADDRESSES OF PUBLISHER, EDITOR, AND MANAGING EDITOR

PUBLISHER (Name and address): Waverly Press, Inc.	Mt. Royal & Guilford Aves.	Baltimore, Maryland 21202
EDITOR (Name and address): Dr. Ingram Olkin (Statistics)	Stanford University	Stanford, Calif. 94305
MANAGING EDITOR (Name and address): Dr. K. J.C. Smith (Statistics)	Univ. of North Carolina	Chapel Hill, N.C. 27514

7. OWNER (If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding 1 percent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a partnership or other unincorporated firm, its name and address, as well as that of each individual must be given.)

NAME	ADDRESS
Institute of Mathematical Statistics (Unincorporated non-profit society)	Univ. of California Medical Center, San Francisco Medical Research Bldg IV - Room 131 San Francisco, California 94122

8. KNOWN BONDHOLDERS, MORTGAGEES, AND OTHER SECURITY HOLDERS OWNING OR HOLDING 1 PERCENT OR MORE OF TOTAL AMOUNT OF BONDS, MORTGAGES OR OTHER SECURITIES (If there are none, so state)

NAME	ADDRESS
None	

9. FOR OPTIONAL COMPLETION BY PUBLISHERS MAILING AT THE REGULAR RATES (Section 132.121, Postal Service Manual)

39 U. S. C. 3626 provides in pertinent part: "No person who would have been entitled to mail matter under former section 4359 of this title shall mail such matter at the rates provided under this subsection unless he files annually with the Postal Service a written request for permission to mail matter at such rates."

In accordance with the provisions of this statute, I hereby request permission to mail the publication named in Item 1 at the reduced postage rates presently authorized by 39 U. S. C. 3626.

(Signature and title of editor, publisher, business manager, or owner)

10. FOR COMPLETION BY NONPROFIT ORGANIZATIONS AUTHORIZED TO MAIL AT SPECIAL RATES (Section 132.122, Postal Manual) (Check one)

The purpose, function, and nonprofit status of this organization and the exempt status for Federal income tax purposes:

(1) Have not changed during preceding 12 months

(2) Have changed during preceding 12 months

(If changed, publisher must submit explanation of change with this statement)

11. EXTENT AND NATURE OF CIRCULATION	AVERAGE NO. COPIES EACH ISSUE DURING PRECEDING 12 MONTHS	ACTUAL NUMBER OF COPIES OF SINGLE ISSUE PUBLISHED NEAREST TO FILING DATE
A. TOTAL NO. COPIES PRINTED (Net Press Run)	6139	6151
B. PAID CIRCULATION 1. SALES THROUGH DEALERS AND CARRIERS, STREET VENDORS AND COUNTER SALES	None	None
2. MAIL SUBSCRIPTIONS	4912	4955
C. TOTAL PAID CIRCULATION	4912	4955
D. FREE DISTRIBUTION BY MAIL, CARRIER OR OTHER MEANS 1. SAMPLES, COMPLIMENTARY, AND OTHER FREE COPIES	12	12
2. COPIES DISTRIBUTED TO NEWS AGENTS, BUT NOT SOLD	None	None
E. TOTAL DISTRIBUTION (Sum of C and D)	4924	4967
F. OFFICE USE, LEFT-OVER, UNACCOUNTED, SPOILED AFTER PRINTING	1215	1184
G. TOTAL (Sum of E & F—should equal net press run shown in A)	6139	6151

I certify that the statements made by me above are correct and complete.

(Signature of editor, publisher, business manager, or owner)

Robert V. Hogg, Treasurer

PS Form 3526 July 1971
